# Leisure Time Control™ emulsifier

This dual-action formula prevents unsightly water line film as well as stain and scale from forming around the perimeter of the spa.

## Features:

- Contains a sequestering agent to prevent stain and scale.

## Applications:

**Start-Up**:
Add this product before adding **Leisure Time Boost™** non-chlorine shock or **Leisure Time Free™** sanitizer.
1. With circulation pump ON and blowers turned OFF, add 1.5 oz. of **Leisure Time Control™** emulsifier per 150 gallons of water directly to the spa.
2. Circulate the water on high speed for 15 minutes.

**Weekly**:
Add this product before adding **Leisure Time Boost™** non-chlorine shock or **Leisure Time Free™** sanitizer.
1. With circulation pump ON and blowers OFF, add 3/4 oz. of **Leisure Time Control™** emulsifier per 150 gallons of water directly to the spa.
2. Circulate water on high speed for 15 minutes.
3. Test spa water once a week with **Leisure Time™ Spa & Hot Tub Test Strips**.
Maintain proper FREE, pH, total alkalinity and calcium hardness levels.

## Sizes:

32 oz.

## Compatible With:

Control is compatible with the **Leisure Time Simple Spa Care™** specialty line of products.
