

# BUILDER SPEC SHEET CONTROL SYSTEMS

Handheld remote standard with all control systems  
See back page for all features and options

Use our water resistant floating RF remote or simply run your fingers over the Color Dial of your Smartphone App and give your pool a brand new look within seconds! Enjoy advanced color control & dimming options through Bluetooth Direct Point-to-Point.

The new PT-6000 has been designed specifically for the seamless conversion of an existing fiber optic pool lighting system to Fiberstars LED pool lighting system. The PT-6000 is a remote control power center for the Fiberstars family of lighting products.

Fiberstars WIRTRAN is a small, simple, 12VAC 30W power center operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30Watt max, low-wattage product that is single switch operated.

Fiberstars WPC-1 offers all the benefits of a small and simple power center. Operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30W or 120VAC 8 Amp remote control system. Time clock for single speed pump.

Fiberstars WPC-2 offers all the benefits of a small and simple, 12VAC or 120VAC power center. Operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30W or 120VAC 8 Amp remote control system. Time clock for single or dual speed pump. 100 Amp subpanel

## FEATURES & BENEFITS

- Bluetooth control system
- Independent Remote Control Available
- Operate your Treo Lights or Color Light Streams Products
- Operate with any Android or Apple product
- Dim Treo lights with a swipe of your finger (with iStar only)
- No 12V transformer needed
- Operates up to 10 LED lights or Color Light Stream Products
- Free iStar app for all Android and Apple products.
- Pre-programmed 6 color options, and 2 color shows. Outdoor rated enclosure
