INSECT REPELLENTS THAT NATURALLY WORK!

2014

What is Geraniol?

It's the Naturally Derived Active Ingredient in ALL of BugBand's Highly Effective Insect Repellents!

Savvy folks have been planting geraniums in their window boxes for centuries, using the natural properties of the flowers to repel bugs. Today, the hard data exists that proves that the use of geraniums is more than a tradition passed down from generation to generation. Geraniol, a powerful ingredient extracted from geranium oil through a unique refining process, does indeed provide a natural – and extremely effective – insect repellent.

According to laboratory and field studies by the University of Florida in Gainesville, Geraniol, the active ingredient in BugBand insect repellent, has been proven effective in repelling a wide variety of insects, including mosquitoes, house flies, stable flies, horn flies, cockroaches, fire ants, fleas, gnats, dog ticks, lone star ticks, and no-see-ums.

The University of Florida developed and tested alternatives to synthetic pesticides over a 17 year period. As part of the testing process, which was headed by Dr. Jerry Butler in the Department of Entomology and Nematology, university researchers created and patented a device called an olfactometer, which duplicates human skin and gaseous conditions that attract biting and annoying insects.

Previous to the University's work, there was no hard data or scientific studies to document what effect, if any, geranium oil had on any specific type of insect. The team tested and retested more than 4,000 compounds, and Geraniol emerged as an effective means of repelling insects.

**NATURALLY DERIVED
REPELLENT**

Introducing a Combo Kit designed & licensed through the Boy Scouts of America "Be Prepared" Program

Two Quality Insect Repellents in a Value Priced Package!

Designed exclusively for and licensed by the Boy Scouts of America, this **unique BugBand® Insect Repellent Kit contains 2 levels of insect protection.**

The blue and glow-in-the-dark Bug-Band Wristbands provide long-lasting light duty protection from mosquitoes, flies, gnats, no-see-ums and fleas. Each Wristband works up to 120 hours, and may be stored in the provided pod when not in use. This extends the life of the wristbands. The BugBand Towelettes increase the level of protection to Heavy Duty with a more concentrated application of Geraniol lotion. When applied directly to the skin, this lotion also repels ticks. Four packs with 2 towelettes each (8 towelettes in all) are supplied in each kit.

- ◆ Lightweight and travels anywhere
- ◆ Easy to apply
- ◆ Pleasant scent
- ◆ Long-lasting
- ◆ Non-toxic

INSECT REPELLENT MADE WITH NATURALLY DERIVED INGREDIENTS

BugBand® Pump Spray Lotion Insect Repellent

HEAVY DUTY PROTECTION

Perfect for when you need heavy-duty protection, BugBand® Pump Spray lotion does not contain any propellants, but relies on a highly effective metered pump sprayer to dispense a fine mist over the area to be treated. By spraying the BugBand lotion directly on clothing or skin, the Geraniol vapors form a protective barrier to deter blood-sucking insects from biting. It is ideal for uses around the ankles, wrist or neck, where insects tend to invade clothing. Use once for hours of insect protection.

DID YOU KNOW?

Hunters, campers and anglers know all too well the buzzing, biting insects that seem to target their bare skin and clothing the second they step into the great outdoors. And they also know what can happen to their expensive equipment when they use harsh, solvent-based pesticides. Outdoors people, from hunters and fishermen to campers and hikers, are discovering BugBand as an effective alternative to DEET. The readers of *North American Hunter* and *North American Fisherman* magazines conducted in-depth testing on the products, and gave BugBand high marks for its effectiveness. Other outdoor media, including *ESPN Outdoors*, *Bow Hunting World*, *Backpacker*, *Camping Life* and *Chesapeake Angler*, have all sung BugBand's praises, as well.

Our pump spray is CFC-free and measures out the perfect amount every time.

BugBand Pump Spray repels mosquitoes, flies, gnats, no-see-ums and ticks!

STRONG PROTECTION FROM BITING INSECTS IN A PUMP SPRAY

BugBand® Towelette Lotion Insect Repellent

HEAVY DUTY PROTECTION

The BugBand® Towelette is a very handy, easy-to-use method of applying Geraniol insect repellent. The towelettes travel anywhere, are lightweight and take up very little space. Safe and effective, the towelettes allow for exact application of Geraniol lotion on exposed skin. They're ideal for using around your face or neck without over-applying. The towelettes can be folded and stored in the foil container for future use.

DID YOU KNOW?

BugBand insect repellent has been field tested by the members of the PGA TOUR Partners Club, and now the enthusiastic results are in.

Club members gave the SPRAY BOTTLE A PHENOMENAL 93% APPROVAL RATING and the TOWELETTES AN 86% APPROVAL RATING.

The DEET-free repellent has appeared in regional and national golf-themed media including *PGA Tour Partners magazine*, *Southland Golf*, *GolfMediaWire.com*, *WorldGolf.com*, and *Kansas Golfer*, plus several other publications.

EXTREME INSECT DETERRENCE FROM NATURALLY DERIVED GERANIOL

BugBand® Wristband Long-Lasting Insect Repellent

LIGHT DUTY PROTECTION

A good choice for recreational and light-duty applications, the **BugBand® Wristband** comes in multiple colors, including red, orange, yellow, olive green, pink, purple, blue, black and extremely popular glow-in-the-dark. The vapors from the plastic **BugBand® Wristband** form a protective shield around the immediate area, keeping insects a safe distance away. While many repellents are easily diluted or rinsed off with swimming or perspiration, the wristband just keeps working, up to 120 hours. It's packaged in an innovative reusable plastic "pod" to store the wristband and it can be sealed between uses to preserve the active life of the product.

The plastic wristband is designed with a patented break-away strap that snaps if it becomes entangled. It can also be worn on belt loops, hatbands, pet collars, fastened in tents, attached to baby carriages or applied to other areas where blood-feeding insects could be a problem.

DID YOU KNOW?

BugBand is gaining national attention among parents, outdoors people and organic gardeners looking for an effective alternative to synthetic pesticides. Writer Joe Lamp'1 included BugBand as part of his 2006 "Best of the Must-Haves" list, and touted the products on the *Today Show* and in his nationally syndicated "Joe Gardener" column. An article in *Green Profit* magazine is helping to let garden centers and other retailers know about BugBand's garden-friendly qualities. And, from *Phoenix Home & Garden* and *Better Homes & Gardens: Gardening and Outdoor Living* to the *Seattle Times* and the *Dallas Morning News*, dozens of other newspapers, magazines and TV and radio shows have featured the products.

OUR MOST POPULAR PRODUCT IN A RAINBOW OF COLORS

BugBand® Portable Diffuser Insect Repellent

PORTABLE PROTECTION

The BugBand® Portable Diffuser is the latest insect repellent technology and is powered by 3 AAA batteries so it can go almost anywhere with you. Its quiet fan distributes pleasant smelling Geraniol vapors protecting up to 300 square feet. Each refillable cartridge lasts up to 120 hours.

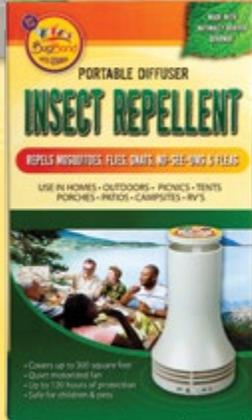

Turning the diffuser to the *ON* position, a soft red glowing light indicates the diffuser is operating correctly. To help identify the batteries are getting low, the same soft red light will blink. The air-flow is adjustable with a lever on the side of the diffuser.

The diffuser has been designed to work in homes, offices, indoors, outdoors, picnics, tents, porches, patios, camp-sites and RVs. The portable diffuser is also safe to operate around food, children and pets.

THE REFILLABLE, GO-ANYWHERE BATTERY-OPERATED INSECT REPELLENT

Bed Bugs No More!™ Pesticide for Bed Bugs

DON'T
LET THE
BED
BUGS
BITE!

**KILLS
BED BUGS
ON CONTACT**

Introducing BugBand's naturally derived solution to bed bug infestations. **Bed Bugs No More!™** uses a "Swiss trade-secret strength" Geraniol formulation that kills bed bug eggs, larvae, nymphs and adults on contact. Standard pesticide products are nerve agents that only kill adult insects with a developed nervous system.

Bed Bugs No More!™ works by attacking the bed bug's exoskeleton making it an effective treatment against them.

WHY ARE BED BUGS MAKING A COMEBACK?

Bed bugs now infest numerous public places, where they can crawl onto clothing and hitchhike to your home. Hotels top the list of bed bug hideouts, but they may also be found in theaters, airplanes, subways, trains, buses, prisons, and dormitories. Your best guard against bed bugs is information. Know what they look like, and take appropriate steps to keep them from crossing your threshold.

BugBand® Spreadable Wide Area Insect Repellent

WIDE AREA PROTECTION

OUR NEW BOTTLE IS USED FOR MULTIPLE APPLICATIONS.

We have simplified our spreadable insect repellent product line by making this new multi-purpose shaker bottle.

BugBand® Granular Repellent can be used to both deodorize offensive smells and control flying insects over a wide area. Use around dumpsters, curbside pick-up or trash cans. Use in horse stalls and dog kennels to control flies and odors. Use under swings, slides and on playgrounds to protect children from biting insects. Also use around picnic or camping areas. This product can also be used for large venues such as concerts, fairs and sporting events.

BugBand® Granular Repellent uses naturally derived ingredients infused in a corn cob base. This makes it biodegradable and does not significantly contribute to "landfill volume." Highly effective against insects. Fresh fragrance. Independently tested with amazing

results. GRAS - Generally Recognized As Safe.

Lightweight for reduced shipping. Also available in 55 gallon bulk drums.

SHAKER TOP BOTTLE

#88650 (6/case)
Spreadable Geraniol Insect Repellent in Shaker Bottle

Also available for bulk purchase in sealed 55 gallon plastic lined drums.
