

Directions for use:

Clear & Perfect

Standard Dosage Rate (no premixing required)

1oz (30ml) per 6000 gallons (22,700L) of pool water

Cloudy Water Dosage Rate (no premixing required)

1oz (30ml) per 4000 gallons (15,000L) of pool water

1. Squirt **Clear & Perfect** at recommended dosage rate per gallons of pool water over pool water surface, concentrating on deep water areas
2. Squirt **Clear & Perfect** onto surface until you reach the suggested amount of ounces per gallons of water in your pool (Side of bottle has measurement marks)
3. Run filter system continuously for at least six hours after application

Note: **Clear & Perfect** may be oxidized by high levels of sanitizer. Do not use **Clear & Perfect** within 24 hours of any metal/stain treatment products
