

## Large 3 Inch Tablets

Slow-dissolving 8 oz. tablets offer 90% available chlorine for effective sanitizing. Use these tablets for continuous disinfection of swimming pool water.

### Features:

- Ideal for use with floaters, feeders or skimmers
- Stabilized to help prevent UV degradation from sun light

### Applications:

#### Normal:

See label instructions for complete directions

### Sizes:

4 lbs.  
8 lbs.  
15 lbs.  
25 lbs.  
50 lbs.

### Tips:

**Large 3" Tablets** are part of our *No Algae. Guaranteed. Program* which guarantees that your pool will be algae-free all season long if you use a GLB™ sanitizer, **Algimycin™ 2000** algaecide and **Oxy-Brite™** non-chlorine shock oxidizer.

### Compatible With:

Ozone and mineral purifier systems.

### Advantage:

Tablets dissolve slowly and at a uniform rate, eliminating the need for frequent hand feeding of granular or liquid chlorine.
